

PLEASE ENSURE YOU KNOW YOUR PASSPORT NUMBER/ ISSUE DATES/DOB. CASE OFFICER WILL VERIFY THESE INFORMATIONS BEFORE INTERVIEW.

WHY Australia?

- 1 It is an English-speaking country so therefore i will not be having any language problems
- 2 Australian education has a strong international reputation for excellence
- 3 Cultural diversity-all cultures and religions live together peacefully. also a secular country
- 4 Will give me the best platform to succeed in my career, and prepare me for the challenges of the work place in my country
- 5 great weather-Australia has one of the world's sunniest climates. Australia's Bureau of Meteorology states that it has the fewest rainy days of all inhabited continents.
- 6 **Globally-recognized** courses and qualifications and also a good international reputation
- 7 Australian education system, focus is on practical learning that encourages creative, independent thought-You do not just clear your exams and get good grades, but you actually learn **through critical analysis method of learning rather than rote learning.**

SYDNEY

- 1 state capital of New South Wales/ However, the **Capital CITY** of NSW is Sydney.
- 2 lots of reputed colleges and universities are located here
- 3 Diverse and multicultural - European and Asian influences make the city rich with diversity.
- 4 great weather- temperate climate with warm weather n mild winter
- 5 peaceful safe which will provide me a great environment to foster my education
- 6 one of the well developed cities in the world
- 7 Easy access to facilities like transport and other infrastructures for international students.

Q: Why do you wish to study in the Australia and not in Nepal?

- 1 Prefer international degree-Value of international degree is so widely acceptable and the

teachings are conducted with all the facilities and amenities of the latest trends and practises in the world.

- 2 A-level student
- 3 Practical knowledge
- 4 Cultural diversity
- 5 Globally recognized courses
- 6 I will meet People from diverse and multicultural background which will educate me in understanding other cultures and people, which I believe is also part of education.
- 7 Want to learn foreign practices and implement in Nepal.

Q: What if you get an Australia degree here, would you like to go to Australia again for higher Studies?

- I will leave my options open. However, my intention is to achieve international education from a good university in Australia and invest my knowledge and experience of learning in Australia to participate in the development of IVF technology in Nepal which is at infant stage right now. I wish to get involved in research and development in scientific developments. **For instance, an ex-Student from Australia came back to Nepal after his studies in Australia to start Ostrich Farming in Nepal.** (giving examples are always gives advantage). This is the way for how I wish to contribute my knowledge to Nepal's development through science.

**(Do not use ambiguous answers like not sure/have not thought about and all)** I don't think there is any such college/university in Nepal till now. But, I would still prefer to go to Australia because I believe I can learn more and better things in Australia compared to Nepal because I will meet People of diverse and multicultural background there which will help me explore my knowledge)

Q: Why did you select Australia for higher studies? Isn't this course offered by any university or college in Nepal?

- 1 Yes but I am looking for hands on training and proper education system along with an International Degree.
- 2 Checked Australian curriculum for biotechnology and its better than that of Nepal
- 3 KU initiated it this year but I checked Australia for the course n it meets my expectations so I want to study in Australia
- 4 Want to learn n compete with different people of different cultures
- 5 Practical knowledge
6. Though Institutions in Nepal offers courses in science, it still cannot compete with the education pattern and in the delivery of latest information on science and technology as in Australia or other developed countries. And, this is exactly the reason I wish to go to Australia to learn come back and make a difference..

Q: What is the purpose of your trip?

- 1 The purpose of my trip is to study science and technology in environment where latest education is delivered in par with the recent development in science.

Q: Have you ever been to Australia?

- 2 No

### **ABOUT YOUR COURSE**

Q: What course are you going for?

- 3 Diploma of science followed by Bachelors of biotechnology
- 4 diploma start date 2 oct 2012 extened up to 19<sup>th</sup> of October, 2012
- 5 Diploma End Date 20 Sep 2013

cost-24,525\$

Location haymarket, Sydney

English Start: 12 Nov 2013

English End: 13 Dec 2013

**Why are you doing English in between?**

- **It is because my Bachelor will not start until February 2014 and I cannot take a break for more than 56 days after my Diploma Completion. Therefore, to comply with my student visa condition I have enrolled into english course before my Bachelor starts.**

Bachelors of biotech Orientation -17 Feb 2014

Course Start 3rd March 2014

3 years Course

LOCATION: broadway,sydney main campus

Q: Why did you select this course? Is it relevant to your previous studies?

- 6 Yes
- 7 I have Been a science student
- 8 Had biology as a major
- 9 having a science background n biology as a major i think i will be able to give my best to acquire knowledge n foster myseelf in biotechnology.
- 10 The biotechnology industry in Nepal is not slowly developing and I wish to be a part of this industry specialising in IVF technology ,when I come back from Australia.

What do you mean by IVF?

- Means In Vitro Fertilisation (IVF) which is a process where an egg is fertilised by sperm outside the body. (Read more)

Q: Why are you taking this course?

- 1 This course is recognised by the Australian Biotechnology Association.
- 2 Science student with interest in biotechnology
- 3 Was interested to learn about IVF technologies, gene technologies, how to produce insulin, bioleaching. (If asked make sure you know what these are)

Q: What is the course structure & contents?

## **DIPLOMA**

### Stage 1

Academic and Technical Communication

Mathematical Modelling 1 or Foundation Mathematics

Physical Modelling

### Stage 2

Engineering Communication

Mathematical Modelling 2 or Mathematical Modelling 1

Networking Essentials

### Stage 3

Chemistry 1

Informatics: Visual Basic

Statics

will be studying 9 units in three stages i.e three semesters three in each to earn myself 48 credit points (indicate only first 4 units from the total course)

## **BACHELORS**

Course completion requirements

STM90680 Foundation stream (Life and Environmental Sciences) 48cp

STM90684 Core subjects (Medical and Molecular Biology) 48cp

91142 Biotechnology 6cp

91144 Plant Biotechnology 6cp

91335 Molecular Biology 2 6cp

91368 Bioreactors and Bioprocessing 6cp

91369 Biobusiness and Environmental Biotechnology 6cp

CBK90582 Elective 4 6cp

Select 12 credit points from the following options: 12cp

91129 Transfusion Science 6cp

91345 Biochemistry, Genes and Disease 6cp

91352 Parasitology 6cp

91359 Advanced Immunology 6cp

Total 144cp

Course program

The program shown assumes full-time attendance, commencing in Autumn semester.

Year 1

Autumn semester

65111 Chemistry 1 6cp

91107 The Biosphere 6cp

91161 Cell Biology and Genetics 6cp

33116 Statistical Design and Analysis 6cp

Spring semester

Q: How long will your studies last?

- 1 1yrs diploma in science 5 weeks english course
- 2 3 yrs bachelors of biotechnology

Q: What is the scope of your course?

biotechnological research, development and production positions in agricultural, biomedical, chemical, communications, energy, environmental, manufacturing, medical and pharmaceutical companies. invent or research biotechnological science or start their own company to capitalise on their ideas.

Q: What benefit will bring this course to you?

after the completion of my course i can have higher chances of placements in my country for biotechnological research, production positions in agricultural,medical,environmental,communications,energy etc which will help me to contribute to the developments in this area since I wish to get involved more in research.

Q: What is the course commencement date?

diploma start date 2 oct 2012

Diploma End Date 20 Sep 2013

cost-24,525\$

Location haymarket, Sydney

English Start: 12 Nov 2013

English End: 13 Dec 2013

Bachelors of biotech Orientation -17 Feb 2014

Course Start 3rd March 2014

3 years Course

LOCATION: broadway,sydney main campus

cost:12,620 per sem 76,509 total

Q: What will be the total cost of per year?

Diploma cost-24,525\$

english-2,375

**Q: Where will you stay in Australia?**

i shall stay with my cousin for couple of weeks untill i get a new flat (Specify Address)

**ABOUT YOUR ACADEMIC BACKGROUND**

Q: Where did you do your last course of study?

MALPI INSTITUTE

Q: What is your specialization?

SCIENCE

Q: What is your High School, Degree or Master's percentage or grade?

aCDDD

Q: What are your subjects in last course of study (High School, Degree or Master's)?

physics,chemistry,biology,maths,general paper

**ABOUT YOUR INSTITUTE**

Q: Which university are you planning to go to?

## University Of Technology Sydney (UTS)

Q: Can you tell me some details about your university?

- The university was founded in its current form in 1981
- faculties
- **Arts and Social Sciences**
- **Business**
- **Design, Architecture and Building**
- **Engineering and Information Technology**
- **Graduate School of Health**
- [UTS:Pharmacy](#)
- **Health**
- **Science**
- 4 campuses mainly in haymarket,broadway,chippendale,kuring-gai

Q: Why have you chosen this specific university?

- its ranked 12th in australia according to times higher education
- falls in top 400 in the world university rankings according to times higher education world university rankings
- its easy to commute
- i really liked the course structure
- its an old institution so there are experienced professors
- its recognised by australian biotechnological association
- it has good infrastructures and resources which will help me broaden my knowledge
- its meets my expectations both academically and financially
- it has a good reputation among the international colleges

Q: Can you tell me the location of the university/college?

**Please write the exact address** (broadway Sydney)

Q: Why did you choose this institute and how did you find about it?

- I was doing a lot of research through internet browsing websites, comparing courses, reading brochures and handbook and the research on cities and locations.

Q: How many universities did you apply for? (Both admits and rejects)

i had applied for University of Western Sydney (**Say the full name**) n i got the enrolment but unfortunately my visa was rejected so i couldnt join UWS

Q: you had previously applied for UWS but why did u apply for UTS now??

- Since, I missed the intake to reapply again at UWS, I didnt not loose time by not studying so i was looking for a college in October session which i found in UTS.
- With my extensive resarch and through maps, I was able to find out that UWS locations are away from the city area and are in Suburbs where as UTS is conveniently located in the heart of the Sydney city accessible to train stations.
- in my further research i found that UTS was better than that of UWS in different aspects as RANKING,PLACEMENTS its a bit expensive though but im looking for a quality education so it doesnt make much difference at all
- the course structure of UTS is better than that of UWS according to my research (**WHY-Should have an answer if they ask**)

Q: Can you mention the names of some professors?

- Mr. Kenneth Alvarez /Faculty of Science (Or Please check if any more from Website)

Q: Did you receive any scholarships?

NO i didnt apply for any scholarships

### **ABOUT CURRENT JOB/BUSINESS**

Q: Show your Experience Certificate. (if applicable)

Q: (If you are currently working) Why are you leaving your current job?

### **ABOUT YOUR FAMILY**

Q: What does your father do?

he works at a insurance company called Rastriya Beema Sansthan

Q: How many brothers and sisters do you have?

1 younger brother

Q: What is your father's annual income?

**Please write it as per the information provided in your previous visa application and this one.**

### **SPONSOR AND FINANCIAL DETAILS**

Q: Have you got any Loans?

yes i have a student loan sanctioned from SBI bank

Q: What are the sources of income of your sponsor?

-Look into what details you had provided earlier.

Q: What proof do you have that your sponsor can support your studies?

Q: Who is paying for your education and what is his/her income?

my Parents

Q: How will you finance your education funds for 4 years?

my parents will extend my bank loan as per my requirements

### **FUTURE PLANS (CAREER PROSPECTS)**

Q: What are your plans after completing your studies?

- after completing my studies I'll be returning back to my country to utilize my education into work

Q: Have you researched your career prospects?

yes.

Q: What will you do after coming back to Home?

- apply for placements in hospitals, agricultural research centres, pharmaceutical companies.
- if possible ill try to initiate a research on IVF technologies, genetic screening, hybridization because its new to my country

Q: How much money can you earn after your completion of studies?

- medical field is growing rapidly in nepal so i will earn enough to live a prosperous life
- biotechnology has been my passion so i dont want to compare it with money i will be satisfied with the investment to my studies

Q: Do you intend to work in Australia during or after completion of your studies?

- nope i intend to come back to my home country because i will grow more here with an international degree as there are really less professionals in this field
- being an elderly son i have to return to take care of my parents.

Q: How can you prove that you will come back after finishing your studies?

-It is my determination and my passion to participate in the development of science in my country . Therefore, my ambition or my dreams which I wish to achieve is a proof.

### **RELATIVES IN AUSTRALIA:**

Q: Do you have any relatives in the Australia?

yes.

Q: Do you know anyone (in Australia) in your University?

no

## **VISA**

Q: If the VISA officer asks why should I grant you VISA what should I answer?

- i'm a genuine student with a good intention of studying
- even from my financial background i can afford to study in australia
- i don't have any criminal background

Q: What will you do if your Visa is rejected?

- I'm really focused in my career so i will reapply for australia again for next session because i don't want to compromise with my studies and career at all.

## **MISCELLANEOUS**

Q: Have you ever visited any other country?

no

Q: Will you come back to home during summers?

- It depends upon my course duration and permission from the university

Q: What will you do during the off period/semester?

- I will utilise the time to study and may work during summer break since my visa allows me to work during summer break.

**Just for your knowledge when your course is on session- the current working hours is 40 Hours fortnightly (15 days) which means if you work 30 hours in the first week**

**you can only work 10 hours second week. You can distribute these hours any way but should not exceed 40 hours in 2 weeks.**
